

Phoenix DS4640E Series

Millennium Duplex

Designed to meet the requirement of a large capacity fire protection unit for Computer backup tapes and digital media such as CD's, DVD's and Memory sticks. Suitable for use in commercial business premises for large volume storage.

- **Fire Protection (Data)** – Tested to EN 1047 – 1 S120dis standard, Providing 120 minutes Fire protection for computer backup tapes.
- **Water Resistant** – Water resistant for 4 hours at a depth of 3 metres.
- **Drop Test** – Fire impact tested from a height of 9.15m.
- **Magnetic Protection** – Provides protection against magnetic flux of 6.00mT density. Internal flux density reading of only 0.08mT
- **Security Protection** – Tested to the prestigious European S2 Security standard (EN1 4450) giving cash cover of £4,000 or Valuables cover of £40,000*.
- **Locking** – Fitted with high security VDS class 1 (SECU SELO-A) electronic lock with time delay function.
- **Fittings** – A complete range of optional sliding drawer units and shelves are available to organise your media effectively.
- **Colour** – Finished in a high quality scratch resistant paint Ral9003 White.

As part of our strategy to create the finest range of protection against fire and theft, we introduce the Phoenix DS4640E Millennium Duplex Data Safe. This safe provides absolute protection from not just fire but burglary, fire explosion, explosive attack, magnetic interference and is waterproof to a depth of 3 metres for four hours.

We know that fire strikes without warning!! But we also know there will be no warning of the theft or copying of confidential data or documentation. Overnight, a company's most expensive assets, research or development could fall into the hands of unscrupulous competitors, with potentially catastrophic results.

This safe also has the ability to exceed the world's most rigorous fire test, the EN1047-1 S120Dis standard. This demands that in a fire, the safe can resist the crushing pressures of a building collapsing upon it, explosion in the form of superheated gases, falling from a height of 10 metres through burning floors and a raging fire of 1100°C for 2 hours. If that seems hard enough, the internal temperature of the safe will not exceed a comfortable 52°C to keep all your data secure and intact.

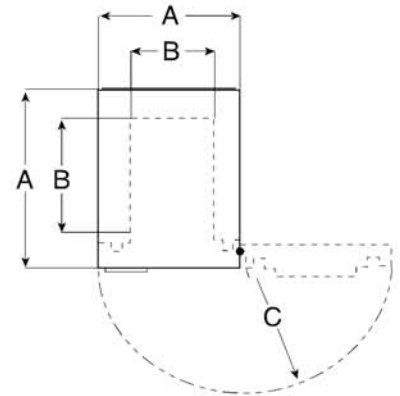

Each cabinet is supplied complete with both adjustable height shelves and heavy duty rollout multi media trays. The media trays are fitted with dividers to provide the maximum possible storage configuration for sensitive data media of all sizes and types.

Extra shelves and drawers are available as an option.

Internal dimensions of multi-purpose pull-out shelf: 412mm x 397mm x 60mm. Flexible in use due to the movable dividers.

Maximum Data Capacities

Media Type	Media Size (mm)			Capacity (Q'ty)			
	Height	Width	Depth	Media per drawer	DS4641E	DS4642E	DS4643E
3.5 Diskette	93	90	3.5	272	1360	1904	2720

● Dimensions stated as:

- A External height x width x depth
- B Internal height x width x depth
- C Door swing
- D Weight
- E Capacity
- F No of shelves/drawers

● Millennium Duplex DS4641E

- A 965mm x 745mm x 720mm
- B 560mm x 465mm x 420mm
- C 745mm
- D 320 kg
- E 109 litres
- F 1 shelf and 2 rollout multimedia trays

● Millennium Duplex DS4642E

- A 1155mm x 745mm x 720mm
- B 750mm x 465mm x 420mm
- C 745mm
- D 380 kg
- E 146 litres
- F 1 shelf and 2 rollout multimedia trays

● Millennium Duplex DS4643E

- A 1535mm x 745mm x 720mm
- B 1130mm x 465mm x 420mm
- C 745mm
- D 490 kg
- E 221 litres
- F 1 shelf and 3 rollout multimedia trays

All weights and sizes are approximate.

All Phoenix Fire Safes come with a Free lifetime 'after the fire' replacement warranty and a full two year materials and labour warranty.

Phoenix policy is one of constant improvement. We therefore reserve the right to alter any part of the specification achieved in this publication without incurring any obligation.
